

CALL FOR PAPERS

ICRCOC 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRCOC 2022 : International Conference on Radiation Chemistry of Organic Compounds is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Radiation Chemistry of Organic Compounds. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Radiation effects in materials
Experimental methods in radiation chemistry
Water and aqueous systems
Radiation chemistry and biology
Aliphatic compounds

Aromatic compounds
Polymers
Dyestuffs
Radiation chemistry and other fields
