

CALL FOR PAPERS

ICSDEWES 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSDEWES 2022 : International Conference on Sustainable Development of Energy, Water and Environment Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Development of Energy, Water and Environment Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable development of energy,
water and environment systems
Accelerating innovation in the
bioeconomy
Energy, water and resource
efficiency for sustainable future:
knowledge development and transfer
Harnessing the resource potential
of our seas in a sustainable
manner
Energy efficiency in industrial
processes and systems
Salinity gradient power and
sustainable water desalination
Renewable energies, innovative HVAC
systems and envelope technologies
for the energy efficiency of
buildings
Polygeneration: a novel paradigm
for an efficient and sustainable
use of energy resources

Energy efficiency in cultural
heritage buildings and preserved
landscape
Waste heat recovery and
utilization
Buildings' energy-efficient
automation
Potentials for energy savings and
long term energy demand
Sustaining high energy efficiency
in existing processes
Advanced multimedia engineering
education in energy, process
integration and optimization
The estimation of energy efficiency
for hybrid refrigeration system
Comparison between hydrogen and
electric vehicles
