

# CALL FOR PAPERS

**ICSREP 2022**  
**Oct 04-05, 2022**  
**Tbilisi, Georgia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSREP 2022 : International Conference on Sustainable and Renewable Energy Policies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable and Renewable Energy Policies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable energy policies  
Climate change and negotiations  
Renewable energy  
Sustainable energy policies for developing countries  
Energy policies in the world  
European climate and energy policy framework  
Community support for renewable energy  
Renewable energy use in the electricity and transport sector

Legislation on biofuels  
Energy performance of buildings  
Renewables heating and cooling  
Renewable energy in the transport sector  
Sustainable biofuels and other biomass  
Internal energy market  
Scenario development and policy debates
