

CALL FOR PAPERS

ICTDA 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTDA 2022 : International Conference on Tropical Dendrochemical Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Tropical Dendrochemical Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Tropical dendrochemistry
Applications of tropical dendrochemistry
Tropical dendrochemistry in environmental sciences
Tropical dendrochemical analysis of lead, aluminum, and calcium

High-resolution tropical dendrochemistry and elemental analysis
Phytoforensics, tropical dendrochemistry, and phytoscreening
Dendroecological applications in air pollution and environmental chemistry
