

# CALL FOR PAPERS

**ICTMPA 2022**  
**Oct 04-05, 2022**  
**Tbilisi, Georgia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTMPA 2022 : International Conference on Tropical Marine Protected Areas is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Tropical Marine Protected Areas. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Tropical marine resources	Restoring damaged marine ecosystems
Tropical coastal resources	Preserving vulnerable marine species
Tropical marine environments	Poverty reduction strategies
Tropical marine ecosystems	Coral reefs
Marine resource management	Human impact
Tropical marine ecosystem-based management	Technology and halfway technology
Tropical marine protected areas	Laws and treaties
Tropical nearshore finfisheries	Organizations and education
Tropical marine fisheries and the future of coral reefs	Extinct and endangered species
Marine resources conservation	Marine mammals
Marine conservation	Sea turtles
Protection and preservation of ecosystems in oceans and seas	Marine plants
Limiting human-caused damage to marine ecosystems
