

CALL FOR PAPERS

ICUETDCC 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUETDCC 2022 : International Conference on Urban Energy Transition, Decarbonization and Climate Change is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Energy Transition, Decarbonization and Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Climate change, decarbonization and urban energy transition
Socio-technical and environmental topics of urban energy transition
Urban energy landscapes and transitions to sustainability

City structure, urban land use and energy consumption
Distributional effects of urban energy policies
Multi-level models and governance concepts to manage transition processes
