

CALL FOR PAPERS

ICUETS 2022
Oct 04-05, 2022
Tbilisi, Georgia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUETS 2022 : International Conference on Urban Energy Transitions and Sustainability is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Energy Transitions and Sustainability. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban energy transition
Solar city
Reconnecting energy generation
Technical and social logic of solar energy
Urbanization, increasing wealth and energy transitions
Direct versus embodied energy
Energy development and sustainable monetary systems
Policy and practice dynamics
City energy networking
Climate change and cities
Climate friendly future
Renewable energy
New aspects of technology

Storage systems for reliable future power supply networks
Sustainable urban mobility
Rural and peri-urban electrification in developing countries
Renewable built environment
Urban heat
Ecodesign and the transition of the built environment
Sustainability on the urban scale
Green urbanism
New models for urban growth
Urban energy and carbon management
Integrating energy in urban planning
Sustainable energy systems
