

# CALL FOR PAPERS

**ICWAMT 2022**  
**Oct 04-05, 2022**  
**Tbilisi, Georgia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWAMT 2022 : International Conference on Water and Agriculture Microbiology and Toxicology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water and Agriculture Microbiology and Toxicology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sewage water treatment using  
microorganisms  
Cyanobacteria-Toxins in Drinking  
Water  
Current Technology and Water  
Applications  
Water management by different new  
techniques  
Water Borne Diseases and Treatment  
Water Quality, Analysis, Safety and  
Testing  
Diseases caused by water pollution  
Water management and treatment  
Spatial ecology, biogeography and  
land use

Structural and functional soil  
microbial diversity  
Biophysical processes affecting the  
life of soil microbes  
Bioengineering soil sustainability  
Molecular Mechanisms of Toxicity  
Biotransformation and  
Toxicokinetics  
Biological Markers  
Environmental Health and  
toxicology  
Ecotoxicology
