

CALL FOR PAPERS

ICAME 2022
Nov 15-16, 2022
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAME 2022 : International Conference on Automation and Mechatronics Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automation and Mechatronics Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Manufacturing	Embedded Systems
Advanced Motion Control	Fault detection and Diagnosis in
Applications in Systems and	Mechatronics Systems
Engineering	Fluid Power Transmission and
Automation and Artificial	Control
Intelligence	Human-Machine Interface
Automation, Control and Robotics	Industrial Robotics and Automation
Automotive and Transportation	Intelligent Control
Systems	Intelligent Optimization Algorithms
CFD and Thermal Science	and Applications
Engineering	Intelligent Traffic Control
Computer Application Technology	Machine Vision
Computer Integrated Manufacturing	Manufacturing Engineering
Computer System Structure	Mechatronics in Energy Systems
Control Engineering	Micro Mechatronics
Control System Modeling and	Micro and Nano fabrication
Simulation technology	
Electronic Automation
