

CALL FOR PAPERS

ICAMSR 2022
Nov 04-05, 2022
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMSR 2022 : International Conference on Advanced Mechatronic Systems and Robotics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Mechatronic Systems and Robotics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent mechatronics, robotics,
biomimetics, automation, and
control systems
Control system modeling and
simulation techniques and
methodologies
Teleoperation, telerobotics,
haptics, and teleoperated
semi-autonomous systems
Biomedical and rehabilitation
engineering, prosthetics and
artificial organs
Industrial automation, process
control, manufacturing process and
automation

CAD/CAM/CAE/CAP and manufacturing
systems, technologies and
applications
AI, intelligent control,
neuro-control, fuzzy control and
their applications
Signal and image processing and
pattern recognition in mechatronic
systems
Wind Energy Conversion Systems,
Aerodynamics, Simulation and
Optimization
