

CALL FOR PAPERS

ICTDMTP 2022
Nov 08-09, 2022
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTDMTP 2022 : International Conference on Therapeutic Drug Monitoring Techniques and Pharmacogenomics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Therapeutic Drug Monitoring Techniques and Pharmacogenomics . The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Therapeutic drug monitoring techniques
Pharmacokinetics and pharmacokinetic models
Pharmacogenetics and biomarkers
Analytical techniques in therapeutic drug monitoring
Practical issues in therapeutic drug monitoring
Drug data profiles

Measuring plasma drug concentration in therapeutic drug monitoring
Current practice of therapeutic drug monitoring
Effects of pre-analytical variables in therapeutic drug monitoring
Technologies in pharmacogenomics testing
Practical considerations
Calculation of dosage adjustment
