

CALL FOR PAPERS

ICWEPSWEC 2022
Nov 08-09, 2022
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWEPSWEC 2022 : International Conference on Wind-Electric Pumping Systems and Wind Energy Conversions is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wind-Electric Pumping Systems and Wind Energy Conversions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wind-electric pumping systems
Wind turbine and energy
distribution systems
Small wind electric systems
Electric design of wind-electric
water pumping systems
Wind energy conversions

Wind energy storage
System model
Steady state analysis
Efficiency assessment of wind
pumping system
