

CALL FOR PAPERS

ICAB 2022
Nov 15-16, 2022
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAB 2022 : International Conference on Animal and Biosciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal and Biosciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal bioscience
Advances in animal biosciences
Breeding and genetics
Biology of systems
Animal science
Animal products
Animal metabolism
Animal genetics
Animal physiology
Animal nutrition
Animal behavior

Animal care and health
Functioning of the animal body
Animal models for human metabolism
Applications of basic animal sciences
Sustainable and ethical animal production
Livestock industry and food security
Foundations of animal science
One health and comparative animal models
Laboratory tools for the biosciences
Avian biology and development
Analytical methods in animal biosciences
