

CALL FOR PAPERS

ICBECST 2022
Nov 15-16, 2022
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBECST 2022 : International Conference on Bioinspired Energy Conversion Systems and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioinspired Energy Conversion Systems and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioinspired energy conversion
Bioinspired solar-energy
conversion
Bioinspired chemistry and materials
for sustainable energy
Bioinspired energy conversion in
nanofluidics
Bioinspired energy conversion
systems for hydrogen production and
storage

Bioinspired catalysts for energy
conversion in fuel cells
Light harvesting and artificial
reaction centers
Bioinspired energy conversion and
quantum mechanics
Artificial photosynthesis for
energy and environment
