

CALL FOR PAPERS

ICEGS 2022
Nov 15-16, 2022
Jeddah, Saudia Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEGS 2022 : International Conference on Environmental and Geological Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental and Geological Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental engineering and sustainable development
Process design and optimization
Product innovation, development and economics
Process intensification
Nanotechnology
New materials & structured products
Intelligent polymers
Green organic synthesis routes
Process integration
Environmental engineering & management
Sustainable & clean technologies
SCF as solvent substitutes
Deep Geologic Repositories

Deep Seismic Soundings
Earth Interior
Emerging information technologies, interoperability and standards: theory and applications
Engineering Geology
Environmental Geology
Exhumation of Orogenic Belts
Exploration Geophysics
Future of Energy Resources
Geochemistry
Geodynamics
Geological Map of the World
Geology of Continental Margins
Geomagnetism
