

CALL FOR PAPERS

ICMBDSE 2022
Nov 15-16, 2022
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBDSE 2022 : International Conference on Modern Building Design, Sustainability and Environment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modern Building Design, Sustainability and Environment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Modern building design
Modern building design tools and strategies
Modern building design processes
Low-carbon modern design strategies, planning and management
Carbon management and low-carbon buildings
Built environment

Architectural theories for modern building design
Architectural design
Modern building technologies
Modern building design, energy and sustainability
Aesthetics and landscape
