

CALL FOR PAPERS

ICCST 2022
Nov 01-02, 2022
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCST 2022 : International Conference on Cell Science and Therapy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cell Science and Therapy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cell science	
Cell science and biotechnology	
Cell line development advances	
Impact of process conditions on product quality	
Advanced cell culture process controls and modeling	
Scale-up and scale-down challenges for cell culture-based manufacturing	
Integrated continuous process development for cell culture	
Non-protein products of cell culture	
Current concerns and emerging trends in cell culture bioprocessing	
Quality by design and scale-down model qualification	
Novel protein formats	
Cell and stem cell engineering	
Artificial cells	
	Bioreactors and bioprocesses for cell expansion and differentiation
	Cell matrix interactions
	Cell networks
	Cell processing
	Cell sensing
	Cell signaling technology
	Adipose Derived Stem Cells (ASCs)
	Cancer Stem Cells (CSCs)
	Dental Stem Cells
	Embryonic Stem Cells (ESCs)
	Fetal Stem Cell Therapy
	Hematopoietic Stem Cells (HSCs)
	Mesenchymal Stem Cells
