

CALL FOR PAPERS

ICESEE 2022
Nov 11-12, 2022
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESEE 2022 : International Conference on Environmental and Sustainable Energy Economics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental and Sustainable Energy Economics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable energy economics
Sustainable energy consumption
Energy modeling
Sustainable electricity supply and demand analysis
Sustainable economic growth and energy consumption
Energy policy, planning and forecasting
Energy pricing
Renewable energy economics

Biomass and bioenergy
Energy storage
Environmental effects, emissions and sustainability
Energy and greenhouse gas mitigation
Financing of energy sector in developing countries
Interaction between energy and environment
Today and future of nanotechnology applications
