

CALL FOR PAPERS

ICFMS 2022
Nov 11-12, 2022
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMS 2022 : International Conference on Forestry Machinery and Simulation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forestry Machinery and Simulation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forestry machinery	Noise and vibration
Forestry machinery equipment	Novel machine designs
Ergonomic design of large forestry machines	Research and testing
Efficiency and cost analysis of forestry machinery	Simulation
Green forest machines	Soil protection
Eco-friendly technical solutions	Stockbreeding machinery
Traces of forest machines in the environment	Support systems
Component cooling systems	Terrain-vehicle systems
Energy-saving technologies	Uses of machines
Engines and vehicles	Utilization of organic and inorganic wastes
Hybrid technology	Wireless technology
Maintenance and repair of agricultural machines	Transport technologies
Management of agribusiness and rural development
