

CALL FOR PAPERS

ICWMEEE 2022
Dec 01-02, 2022
Auckland, New Zealand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWMEEE 2022 : International Conference on Waste Management, Ecological and Environmental Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Waste Management, Ecological and Environmental Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Waste Management, Ecological and Environmental Engineering
Advanced waste treatment technology
Wastewater treatment
Resources recovery
Waste incineration and gasification
Waste pre-treatment, separation and transformation
Methodologies and practices
Landfills, design, construction and monitoring
Soil and groundwater clean-up
Public awareness
Air pollution control
Hazardous waste
Waste management

Construction and demolition waste
Costs and benefits of waste management options
Reduce, Reuse and Recycle (3Rs)
Energy from waste
Electrical waste
Rare metals
Radioecology and Environmental Radioactivity
Radionuclide Speciation & Ecological Transfer
Radiation Biology
Radioecological Sensitivity (including Arctic & Antarctic Environments)
Environmental Protection, Surveillance and Risk Management
Emergency Preparedness, Rehabilitation, and Management
NORM including Mines, Refineries, Conversion Facilities & Non-Nuclear Industries
