

# CALL FOR PAPERS

**ICAIMB 2022**  
**Dec 20-21, 2022**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIMB 2022 : International Conference on Advanced Industrial and Microbial Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Industrial and Microbial Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial biotechnology

Industrial fermentation

Biocatalysis, bio-transformation

Biobased chemicals, bulk products,  
bio-polymers

Biorefinery, fine chemicals

Molecular biology

Biosensors

Microbiology and biochemistry,  
microorganisms and enzymes

Bioinformatics and molecular  
biology

application technologies

Expression technology and  
fermentation

production processes

Immunology and toxicology

Bioengineering and bioprocessing

Industrial sustainability

Bioprocess engineering

Microbial biotechnology

Immunology and biopharmaceuticals

Molecular biotechnology

Biofuels and biorefinery

Genetically modified organisms

Cell culture

Biomaterials

Enzymes from extreme environments

Plant/agriculture biotechnology

Global bioeconomy
