

CALL FOR PAPERS

ICNDS 2022
Dec 06-07, 2022
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNDS 2022 : International Conference on Nanofiltration, Disinfection and Stabilization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanofiltration, Disinfection and Stabilization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanofiltration

Nanofiltration membranes
Transport phenomena in
nanofiltration membranes
Separation potential of
nanofiltration membranes
Range of applications
Advantages and disadvantages
Design and operation
Concentration polarization
Spiral wound module
Tubular module

Flux enhancing strategies
Characterization
Performance parameters
Morphology parameters
Typical figures for industrial
applications
Post-treatment
Aeration
Disinfection and stabilization
New developments
