

CALL FOR PAPERS

ICAPT 2022
Dec 09-10, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPT 2022 : International Conference on Animal Production and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal Production and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal production
Organic dairy production
Precision dairy technologies
Robotic milking, automated calf
feeders and cow behavior sensors
Transition dairy cow health,
management and welfare
Cow-calf and beef feedlot
management
Pre- and/or post-weaning management
practices that enhance meat quality
and safety

Automated monitoring of behavioral
indicators of swine welfare
Reducing piglet mortality in
alternative farrowing systems
Statistical process control
principles in dairy and swine
Sustainable poultry production
Management, health and stress
interactions in market turkeys
Decision making processes for
evaluating management at the farm
level
