

CALL FOR PAPERS

ICCEIOT 2022
Dec 09-10, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEIOT 2022 : International Conference on Consumer Electronics and the Internet of Things is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Consumer Electronics and the Internet of Things. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Consumer electronics (CE)

Recent technologies in consumer electronics

Security and privacy of CE hardware and software systems

Energy management of CE hardware and software systems

Application-specific CE for smart cities

RF, wireless, and network technologies

Internet of things and internet of everywhere

Entertainment, gaming, and virtual and augmented reality

AV systems, image and video, and cameras and acquisition

Automotive CE applications

CE sensors and MEMS

Consumer healthcare systems

Enabling and HCI technologies

Smartphone and mobile device technologies

Other technologies related with CE
