

CALL FOR PAPERS

ICMMC 2022
Dec 30-31, 2022
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMC 2022 : International Conference on Mechanical Manufacturing and Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical Manufacturing and Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerodynamics	Energy Management
Aerospace Systems and Technology	Finite element analysis
Alternative energy	Fluid Dynamics
Applied Mechanics and Design	Fuels and Combustion
Automation	Green Manufacturing
Biomechanics	Heat and Mass Transfer
Computational Fluid Dynamics	Heat exchangers
Computer aided engineering design	Heat Transfer
Concurrent Engineering	Industrial Engineering
Condition monitoring	Industrial Tribology
Design and Manufacturing	Instrumentation and Control
Energy and Thermofluids	Internal Combustion Engines
Energy conversion system	Machine Design
