

CALL FOR PAPERS

ICWDWD 2022
Dec 30-31, 2022
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWDWD 2022 : International Conference on Well Drilling and Well Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Well Drilling and Well Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Well drilling and design methods
Water quality protection for wells
Standards for water and monitoring wells
Well drilling techniques
Cable tool method and variations
Air drilling systems

Auger hole drilling
Well design and construction
Well design in deep confined aquifer systems
Hydrogeological conditions
Well drilling procedures
