

CALL FOR PAPERS

ICAMC 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMC 2022 : International Conference on Advanced Motion Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Motion Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Motion Control
Haptics, Robotics and Human-Machine Systems
Micro/Nano Motion Control Systems
Intelligent Motion Control Systems
Nonlinear, Adaptive and Robust Control Systems
Motion Systems for Robot
Intelligence and Humanoid Robotics
CPG based Feedback Control,
Morphological Control
Actuators and Sensors in Motion System
Motion Control of
Aerial/Ground/Underwater Robots

Advanced Dynamics and Motion Control
Motion Control for Assistive and Rehabilitative Robots and Systems
Intelligent and Advanced Traffic Controls
Computer Vision in Motion Control
Network and Communication Technologies in Motion Control
Motion Control of Soft Robots
Automation Technologies in Primary Industries
Other Topics and Applications Involving Motion Dynamics and Control
