

# CALL FOR PAPERS

**ICARAEC 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICARAEC 2022 : International Conference on Augmented Reality in Architecture, Engineering and Construction is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Augmented Reality in Architecture, Engineering and Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Augmented reality in construction  
engineering  
Virtual reality and augmented  
reality in construction  
Augmented reality for construction  
site monitoring and documentation  
Implementing augmented reality in  
construction  
Business logic challenges

Limited use of contextual  
information  
Complexity and capabilities of  
tracking technologies  
Level of detail required for  
augmented reality content  
Human interface issues challenges  
for users wearing safety gloves  
Positional accuracy of field  
augmented reality devices
