

CALL FOR PAPERS

ICBEST 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEST 2022 : International Conference on Batteries and Energy Storage Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Batteries and Energy Storage Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Battery technologies
Thermal storage materials
Phase change materials

Capacitors (super, ultra, pulsed power)
Smart grid and semiconductor materials
Rechargeable technologies
