

CALL FOR PAPERS

ICCSEA 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSEA 2022 : International Conference on Computer Science, Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Science, Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algorithms and Bioinformatics
Artificial intelligence
Computer Architecture and Real time Systems
Database and Data Mining
Dependable, reliable and autonomic computing
Distributed and parallel algorithms
Embedded system and software
Engineering Systems Modeling and Simulation, Analysis

Game and software engineering
Grid, cloud and scalable computing
IT policy and business management
Mobile and ubiquitous computing
Multimedia systems and services
Networking and communications
Security and trust management
Web and internet computing
