

CALL FOR PAPERS

ICDIS 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDIS 2022 : International Conference on Data and Information Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Data and Information Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer and information science
Big data and cloud computing
Computer graphics and image processing
Computer network and security
Computer simulation and modeling
Computer-aided design / manufacturing
Database technology and data warehousing
E-commerce and e-government
Geographical information systems (GIS)
Grid computing
Internet and web applications
Knowledge discovery and data mining
Management information system

Neural networks and genetic algorithms
Pattern recognition and machine learning
Programming languages and techniques
Software engineering
Artificial intelligence
Fuzzy system
Industrial automation
Intelligent automation and manufacturing
Intelligent building and intelligent housing
Intelligent control and intelligent system
Information security
Access control
