

# CALL FOR PAPERS

**ICGEPB 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGEPB 2022 : International Conference on Genetic Engineering and Plant Biology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Genetic Engineering and Plant Biology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Epigenetic Systems (DNA  
Methylation, RNA-Mediated  
Regulation, Histone Modifications  
and Variants)  
The Dynamic Epigenome  
Nuclear Organization

Epigenetic Regulation of Stem Cells  
and Development  
Crop Epigenetics: Hybridization and  
Heterosis  
Natural Variation and Ecological  
Epigenetics
