

CALL FOR PAPERS

ICHTSIP 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHTSIP 2022 : International Conference on Hardware Technologies for Secure Information Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hardware Technologies for Secure Information Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Circuits and systems for digital rights management, watermarking, and encryption
Data protection strategies and controls
Mobile security and bring your own device

Medical device security
Cyber security
Emerging embedded solutions for security
