

CALL FOR PAPERS

ICMCCP 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCCP 2022 : International Conference on Management Cybernetics and Core Principles is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Management Cybernetics and Core Principles. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Management cybernetics	Autonomous agency theory and cultural agency theory
Organizational design, modeling and simulation	Institutions, organization and mechanisms of social steering
Applications of organizational cybernetics	Design of structures, roles, communication and information systems
Effective social organizations	System holism principle
Organizational cybernetics approach	Darkness principle
Cultures, strategies, structures, operations	Eighty-twenty principle
Implementation, structural guidance, and performance assessment processes	Complementarity law
Single- and double-loop and learning processes	Hierarchy principle
Pathologies of social systems	Godel's incompleteness theorem
Business management and decision processes	Entropy
Cybernetic organization models	Redundancy of information theorem
Organizational cybernetics, humanities and human concerns	Redundancy of potential command principle
Regulation and self-regulation of organizations	Relaxation time principle
