

CALL FOR PAPERS

ICQS 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQS 2022 : International Conference on Quantum Statistics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Statistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum statistics	Quantum statistics in the classical limit
Quantum statistical mechanics	The Planck radiation law
Mathematical foundations of quantum statistics	Black-body radiation
Symmetry requirements in quantum mechanics	The Stefan-Boltzmann law
Formulation of the statistical problem	Conduction electrons in a metal
Fermi-Dirac statistics	White-dwarf stars
Photon statistics	The Chandrasekhar limit
Bose-Einstein statistics	Neutron stars
Maxwell-Boltzmann statistics
