

# CALL FOR PAPERS

**ICRDT 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRDT 2022 : International Conference on Radiation Detection Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Radiation Detection Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Radiation detection and measurement  
Radiation detection devices and systems  
Types of radiation detectors  
Radiation interaction and sources  
Detector materials  
Detector development and characterization  
Radiation imaging and advanced concepts

Radionuclide detection  
Environmental assessment and remediation  
Treaty verification  
Detector materials development  
Realistic computer modeling  
Proliferation detection and prevention  
Detecting ionizing and non-ionizing radiation
