

CALL FOR PAPERS

ICRLLCTEM 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRLLCTEM 2022 : International Conference on Regulation and Law in Low-Carbon and Transitional Energy Markets is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Regulation and Law in Low-Carbon and Transitional Energy Markets. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Upstream petroleum law and contracts in low-carbon energy supply scenarios
Identifying the costs and benefits of transitional energy markets
The role of energy law and policy in the rise of renewable energy and emerging technologies
Policy implications of transitional energy supply markets
The evolving international gas market and transitional 'low-carbon' energy markets

The resilience and reliability of energy supply networks in low-carbon economies
Implications of decarbonization for energy industry contracts and project financing
Instruments of regulation in transitional energy markets
Energy law for the transition
