

CALL FOR PAPERS

ICWRPM 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWRPM 2022 : International Conference on Water Resource Planning and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water Resource Planning and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water Resource Planning and
Management
Water Quality Modelling
Watershed Management
Water Conservation
Geotechnical Engineering
Hydrology
Hydrometeorology

Eco Hydrology
Ground Water
Fluid Mechanics
Remote Sensing and GIS for
Watershed Analysis
Environmental Engineering
Climate Change
Geology
