

# CALL FOR PAPERS

**ICMDT 2022**  
**Dec 27-28, 2022**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMDT 2022 : International Conference on Multiuser Detection Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Multiuser Detection Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Multiuser detection  
Optimum multiuser detection  
Linear multiuser detection  
Non-linear multiuser detection  
Interference cancellation

Multiuser detection techniques  
Adaptive multiuser detection  
Multiuser detection in wireless networks  
Blind multiuser detection in fading channels
