

CALL FOR PAPERS

ICTRE 2022
Dec 27-28, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTRE 2022 : International Conference on Tropical Renewable Energy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Tropical Renewable Energy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart grid and regulation
Renewable energy business and economics
Wind energy
Solar energy and solar cells
Hydrogen and fuel cell
Hydropower energy
Electrochemical process and supercapacitors
Marine energy
Modeling and simulation for energy storage and conversion devices
Techno-economic analysis
Geothermal energy
Bioenergy

Bioenergy and biofuels
Waste to energy
Biomass conversion technologies
Biomass policies, markets and sustainability
Bioenergy in integrated energy system
Biogas
Environmental impacts of bioenergy system
Multifunctional and advanced materials
Carbon, graphene, oxides, composites
Smart materials
Rare earth elements for storage, sensor, CO₂ capture
Lithium and sodium ion batteries
