

CALL FOR PAPERS

ICWSEC 2022
Dec 13-14, 2022
Cairo, Egypt

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSEC 2022 : International Conference on Wildlife Sciences, Ecology and Conservation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Sciences, Ecology and Conservation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife management
History
Game laws
Emergence of wildlife conservation
Types of wildlife management
Opposition
Wildlife conservation
Conservation techniques and strategies
Wildlife researches
Current issues in wildlife management and conservation
Management of hunting seasons

Open season
Limited entry
Closed season
Type of weapon used
Environmental regulation and sustainability in national and global perspectives
Major environmental factors affecting wildlife
