

# CALL FOR PAPERS

**ICNDS 2022**  
**Dec 06-07, 2022**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNDS 2022 : International Conference on Nanofiltration, Disinfection and Stabilization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanofiltration, Disinfection and Stabilization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

## Nanofiltration

Nanofiltration membranes  
Transport phenomena in  
nanofiltration membranes  
Separation potential of  
nanofiltration membranes  
Range of applications  
Advantages and disadvantages  
Design and operation  
Concentration polarization  
Spiral wound module  
Tubular module

Flux enhancing strategies  
Characterization  
Performance parameters  
Morphology parameters  
Typical figures for industrial  
applications  
Post-treatment  
Aeration  
Disinfection and stabilization  
New developments
