

CALL FOR PAPERS

ICQSMQTM 2022
Dec 09-10, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQSMQTM 2022 : International Conference on Quantum State Machines and Quantum Turing Machine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum State Machines and Quantum Turing Machine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum state machines
Quantum computation and Quantum
Turing machine
Quantum supremacy and quantum
decoherence
Measure-once quantum finite state
automata

Measure-many quantum finite state
automata
Latvian quantum finite state
automata
Dense quantum coding
Geometric generalizations
