

# CALL FOR PAPERS

**ICRTMDF 2022**  
**Dec 09-10, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRTMDF 2022 : International Conference on Robot Technologies and Machines-Drones in Food is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Robot Technologies and Machines-Drones in Food. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural robot platforms  
Farming with robots  
Robots for rowcrop, vineyard, and  
orchard applications

Robots for sorting and packing  
Drones in agriculture  
Power and machinery in agriculture
