

# CALL FOR PAPERS

**ICAIOC 2022**  
**Dec 09-10, 2022**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIOC 2022 : International Conference on Advances in Integrated Optical Circuits is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Integrated Optical Circuits. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Integrated optical circuits

Integrated optical circuit  
engineering

Advances in photonic integrated  
circuits

Integrated optic devices in  
communication

Silica waveguide devices

Photonic circuits and components

Digital optical switches

Hybrid integration of optical  
devices

Integrated optics in sensors

Nonlinear integrated optical  
devices

Design and simulation tools for  
integrated optics
