

# CALL FOR PAPERS

**ICOCDT 2022**  
**Dec 09-10, 2022**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOCDT 2022 : International Conference on Ophthalmology and Corneal Disorder Treatments is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ophthalmology and Corneal Disorder Treatments. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Investigation of corneal disease	Eye screening
Corneal ulceration	Strabismus
Epithelial keratitis and drug-induced epithelial keratitis	Amblyopia, exotropia, esotropia
Corneal degeneration	Superior oblique palsy
Recurrent corneal erosion	Retinoblastoma
Corneal transplantation	Thyroid eye disease
Miscellaneous corneal disorders	Orbital trauma
Corneal neovascularization	Age-related macular degeneration
Retrochiasmatic visual pathways	Myopic macular degeneration
Myasthenia gravis	Diabetic retinopathy
Chronic progressive external ophthalmoplegia	Color vision defects
Cerebromacular degeneration	Retinal tumors
Retinopathy of prematurity	Retinal artery occlusion
