

CALL FOR PAPERS

ICEPNP 2022
Dec 30-31, 2022
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPNP 2022 : International Conference on Energy Prices and Nuclear Power is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Prices and Nuclear Power. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Carbon trading and taxation
- Climate change and energy industry
- Clean energy technologies
- Design of energy markets
- Distributed generation issues
- Energy prices and uncertainties
- Energy and sustainable development
- Energy efficiency challenges
- Energy and environmental policy
- Energy demand and economic growth
- Energy markets and regulation
- Geopolitics of oil and natural gas
- Greenhouse gas abatement costs and potentials

- Integration of intermittent power sources
- Investment issues in liberalized markets
- Market power issues
- Oil/gas transportation and pipelines
- Oil reserves and production
- Prospects of CCS technologies
- Prospects for nuclear power
- Prospects for alternative transportation fuels
- Power and gas trade under volatile prices
- Regulation and regulation uncertainties
- Renewable energy technologies and markets
- Risk management issues in the energy sector
- Security of supply issues
