

# CALL FOR PAPERS

**ICAAHM 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAAHM 2022 : International Conference on Aquatic Animal Health and Medicine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aquatic Animal Health and Medicine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aquatic animals  
Maritime animals  
Aquatic animal health  
Diseases and pathology of aquatic organisms  
Global fisheries and aquaculture challenges  
Aquaculture development  
Aquaculture engineering  
Aquaculture nutrition  
Aquatic resources and environmental management  
Aquaculture economics  
Biotechnology and genetics  
Diseases in aquaculture and aquatic health management  
Environmental impacts of aquaculture

Fish biology: immunology, physiology and pathology  
Fisheries, aquaculture and climate change  
Fisheries management and policy  
Fisheries governance and promoting aquaculture sustainability  
Marine biology and coast conservation  
Oceanography  
Postharvest technology  
Seafood processing and value adding  
Interactions between wild and aquacultured fishes  
Amoebic gill disease  
Assessing the impacts of pathogens on wild fishes  
Diseases of ornamental fishes  
Parasite life cycles
