

CALL FOR PAPERS

ICAMIMMB 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMIMMB 2022 : International Conference on Applied Microbiology, Industrial Microbiology and Microbial Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Microbiology, Industrial Microbiology and Microbial Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Drug Discovery in Microbial
Metabolites
Extraction of Fermentation
Products
Industrial Microbiology
Productions
Metabolic Pathways for the
Biosynthesis of Industrial
Microbiology Products
Microorganisms Commonly Used in
Industrial Microbiology
Mining Microbiology
Preservation techniques
Sterility in Industrial
Microbiology

Treatment of Wastes in Industry
Bacillusthuringiensis Toxins:
Microbial Insecticides
Environmental Applications
Microbial Diversity
Microbial Biotechnology
Microbial Polysaccharides and
Polyesters
Production of Proteins in Bacteria
and Yeast
Plant-Microbe Interactions
