

# CALL FOR PAPERS

**ICCES 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCES 2022 : International Conference on Construction Engineering and Studies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Engineering and Studies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction studies  
Construction technology  
Construction materials and  
processes  
Building construction and  
technology  
Built environment and management

Substructure and superstructure  
Internal construction  
Architectural awareness and  
heritage  
Building services and environmental  
technologies  
Product design and realization
